

THOMSON REUTERS CORPORATE RESPONSIBILITY RATINGS

BASELINE SIMPLICITY

Ratings between 0 and 100 measure the Environmental, Social, Governance, and aggregate ESG performance for each company in the universe.

COMPARABILITY

Scoring and benchmarking relative to disclosure practices in industry and by region makes every score comparable.

CONSISTENCY

Data framework is identical for all companies within each industry and region allowing for the generation of comparable statistics over time.

MATERIALITY

Analytical frameworks stress criteria most material to ESG performance and risk in each industry by region.

TRANSPARENCY

Methodology including weights, dynamic scaling, peer groups, and adjustments are fully disclosed and available on spreadsheets via website.

A NEW GLOBAL STANDARD FOR CSR INVESTING

The Thomson Reuters Corporate Responsibility Ratings are based on the Thomson Reuters ASSET4 ESG database which rates the ESG practices of a universe of 4,600 companies worldwide in 226 Key Performance Indicators (KPIs).
